Subject: 5G FCC Video. CA Brain Tumor Assn. Lobbying against 5G

Hi Everyone,

Kevin Mottus of California Brain Tumor Association (and former Congressional candidate) and Dafna Tachover, Attorney and CEO of WeAreTheEvidence.org, a newly founded organization to advocate for adults and children harmed by wireless technology, are lobbying Congress this week and next week before 5G spectrum is auctioned off at the end of the month.

They are doing very important lobbying work to make our government representatives aware of the hazards posed by wireless.

(The telecom industry spends millions each year lobbying Congress and someone from the telecom industry visits the FCC EVERYDAY!)

Please write letters THIS WEEK as directed below to support their efforts (Sep. 30, next week, is deadline)

Our voices together and increasing public awareness is the only way we can compete with telecom's influence on our government.

Also below is a video on 5G produced by Josh Del Sol, who produced the award winning documentary on smart meters "Take Back Your Power" <https://takebackyourpower.net/>. It includes FCC Chairman Tom Wheeler's vision of what 5G will be - which is putting it in everything, from pill bottles to plant water, and interviews with Kevin Mottus and Dafna Tachover.

Some somber FACTS ...

i) **Feb. 24, 2016: A new report published in the journal *Neuro-Oncology* and funded by the American Brain Tumor Association (ABTA) finds that malignant brain tumors are the most common cause of cancer-related deaths in adolescents and young adults aged 15-39 and the most common cancer occurring among 15-19 year olds.** (The study from Neuro-Oncology is attached - please read if you haven't yet) Leukemia used to be the leading cancer among children, but it is now #2 behind brain cancer.

http://www.eurekalert.org/pub_releases/2016-02/abta-mbt022216.php

ii) May 2016: **US Government study** conducted by the National Toxicology Program, part of the National Institutes of Health - US Dept of Health and Human Services, showed a statistically significant increase in brain cancer (3% glioma) and heart cancer in rats exposed to cell phone radiation for 2 years at levels below FCC exposure limits. Unexposed rats did NOT develop cancer. This study establishes **a causal link between cell phone radiation and cancer**, despite how the telecom industry has spun this study in the media.

<http://biorxiv.org/content/early/2016/05/26/055699.full.pdf+html>

iii) October 2013: **The NIMH (National Institute of Mental Health) reported 25-30% of kids between ages 13-18 will experience an anxiety disorder.**

This is an increase of 20 fold (i.e. 1900%) over the last 30 years

<http://health.usnews.com/health-news/health-wellness/articles/2013/10/10/how-to-cope-when-school-anxiety-lingers>

iv) September 2007: **The number of American children and adolescents treated for bipolar disorder increased 40-fold [that's 3900%!] from 1994 to 2003**. Bipolar disorder is characterized by extreme mood swings. Dr. Mark Olfson of the New York State Psychiatric Institute at the Columbia University Medical Center, said, **"I have been studying trends in mental health services for some time, and this finding really stands out as one of the most striking increases in this short a time."** The increase makes **bipolar disorder more common among children than clinical depression**, the authors said.

http://www.nytimes.com/2007/09/04/health/04psych.html?_r=1

v) August 2015: Washington Post reports people are developing dementia a decade earlier compared to 20 years ago (2010 vs. 1990) The disease is now regularly diagnosed in people in their late 40s and death rates from early onset dementia are soaring. The study found that deaths caused by neurological disease had risen significantly in adults aged 55 to 74 and more than doubled in the over-75 population overall. **The problem was particularly acute in the United States, where neurological deaths in men aged over 75 have nearly tripled and in women increased more than fivefold.** *"The rate of increase in such a short time suggested a silent or even a hidden epidemic, in which environmental factors must play a major part, not just aging."* The environmental factors cited included chemical pollution and increased background electromagnetic fields (which includes wireless radiation) https://www.washingtonpost.com/world/people-are-developing-dementia-earlier-and-dying-of-it-more-a-study-shows/2015/08/06/599b16b8-3c0a-11e5-8e98-115a3cf7d7ae_story.html?wprss=rss_world.

1) Video on 5G by Josh Del Sol: The FCC's press intimidation, suppression of science, and rubber stamping of 5G rollout <https://www.youtube.com/watch?v=OMxfffqyDtc>

5:25 - FCC Chairman Tom Wheeler says if something can be connected, it will be. Billions of microchips in products, in everything including pill bottles and plant waters will have RF chip to be connected to 5G. Reason: tens of billions of dollars in economic activity

6:46 - Bloomberg reporter questions Tom Wheeler why his press badge was confiscated when he talked to others at the press conference who attended to express their concerns about 5G radiation

8:30 - Kevin Mottus, former California Congressional candidate asks Tom Wheeler about the US government NTP study of cell phone radiation (below thermal levels) causing cancer in rats and Tom Wheeler ignores the question

9:40 Interviews with Kevin Mottus and Dafna Tachover, attorney and founder of wearetheevidence.org, an advocacy group for those harmed by wireless devices.

32:40 - list of actions to take

33:14 - statements from Annual reports of Verizon, AT&T, Vodafone, China Mobile, General Communication, American Tower, Crown Castle, Telefonica, Microsoft, T-Mobile, Nokia, from 2014/5 to investors regarding HUGE anticipated settlements from lawsuits involving injuries caused by wireless devices. (Most of these companies are self-insured and do NOT carry liability insurance, meaning if they lose the lawsuits they will have to pay) Also statements by Swiss Re (reinsurer), Lloyd's of London (reinsurer) and other insurance companies around the world specifically stating they will NOT cover injuries caused by electromagnetic fields.

37:56 - Schools bringing Google Virtual Reality into the classroom need to sign a waiver absolving them from any liability in case of **personal injury or death, and the maximum liability is \$1,000** (My comment: A company would not have a school sign a waiver absolving them of death or injury unless there was a risk of injury or death. I just saw this waiver for the first time and I am outraged that a school would sign such a waiver - are parents asked for their permission to sign this waiver since it's their kids that would suffer the injury or death? And the maximum liability is only \$1000? Google Virtual Reality uses a device that is essentially a smart phone held a couple inches from the eyes)

2) From Kevin Mottus, California Brain Tumor Association

Submit your **comments** regarding **additional frequencies** within the **5G spectrum** that the FCC is going to vote on within 24-70 GHz as well as even higher spectrums **71-76 GHz, 81-86 GHz and 95 GHz**. Please follow the instructions below, it will allow you to comment on 5 different dockets at once. You

may want to comment specifically on the ways they want to use this 5G technology such as: "machine-to-machine communications, healthcare devices, autonomous driving cars, and home and office automation." See link for more information: http://transition.fcc.gov/Daily_Releases/Daily_Business/2016/db0728/FCC-16-89A1.pdf

Media, decision makers and other organizations definitely look at these comments. Please submit **many many individual, small comments with attachments** because it seems that it's more about the number of comments than the nature of the comments."

The deadline is September 30th but please begin submitting now!

It will help to have these comments on the record to refer to as I visit with individual congress members in person now and demand they stop the roll out of 5G!!

Follow These Instructions to Make Comments:

1. Click on this link <http://fjallfoss.fcc.gov/ecfs2/>.
2. Click on "Submit a Filing" Tab at the top of the page.
3. Click on "Express a Comment" (on top of the page) to just make a comment **OR** "Standard Filing" to attach documents (one of which can be your comment).
4. You can make one comment for all five docket numbers at once. Simply type in or Copy and Paste each of these Docket numbers **one at a time** into the "Proceedings" Field and make sure they are accurately displayed in the window: **14-177, 15-256, RM-11664, 10-112, 97-95**
5. Fill out all required fields and **click "Enter" or "Return"** before you go to the next field.
6. Once all fields are filled out - click continue screen.
7. Review and submit.
8. Make sure you write down your confirmation # so that you can check on your submission.

Thank you for your help and support. If you have any questions email rolamasri@sbcglobal.net.

Kevin Mottus
California Brain Tumor Association

3) Please Contact [WeAreTheEvidence.org](http://wearetheevidence.org) if you have ES/EHS

If your health has been affected by wireless (EHS, cancer, etc.) your help is URGENTLY requested!

1) Please post your 1-page testimonial here <http://wearetheevidence.org/adult-form/>

(If you do not wish to post your story on the website but would like to share it with WeAreTheEvidence.org for the purpose of making our government aware that there are people like yourself getting sick from wireless, you can email Dafna at **Dafna@WeAreTheEvidence.org**)

All stories are important, but she especially needs residents of the following states below ASAP THIS WEEK, so if you live in one of these states, please post your stories ASAP:

(If you know someone who has been affected from one of these states, please forward this note to them and ask them to connect with Dafna. Thank You!)

New Jersey
Washington
Nevada
Missouri
Alaska

MA
Mississippi
Colorado
Hawaii
Minnesota
South Dakota
Florida
Montana
New-Mexico
Texas
Massachusetts
Connecticut
Kansas
